

Windows 10

Big security. Small price.

## Windows 10 Enterprise E3 for Small and Medium Business

Secure your sensitive data

Simplify your IT

Scale your business

### Get the most secure version of Windows

Safeguard your business and get greater levels of control and flexibility. Windows 10 Enterprise E3 offers enhanced features that take the next step to help secure your data, devices, and user identities. We can work with you to determine how to implement these solutions in the way that best suits your business.

### Managed by your trusted partner

Small IT staff or no IT staff at all? No problem. You can rely on us for comprehensive management and support related to implementation, users, subscription ordering, and configuration of services and devices. We'll be your single point of contact so you can focus on more strategic priorities—like growing your business.

### With a small business price of £5

When you make the hassle-free upgrade from Windows 10 Pro, you'll take advantage of the latest security, management, and deployment features, while saving on capital expenses and lowering up front costs with subscription-based access. Plus, you'll spend less time managing devices with a simple, flexible subscription licensing process.

## Key features

**Credential Guard:** offers additional protection for users authenticated on your network against malware running in the operating system\*

**Device Guard:** helps keep your devices safe from malware, untrusted apps, and executables\*

**AppLocker Management:** help prevent the execution of unwanted and unknown applications within your network

**Granular UX Control:** optimize security by customizing and locking down the user experience on specific devices – such as kiosks

**App-V:** simplify application management and keep your apps current and protected

**And more:** get the details at [www.microsoft.com/WindowsForBusiness/windows-for-enterprise](http://www.microsoft.com/WindowsForBusiness/windows-for-enterprise)

## Why work with a partner?

You can rely on us for a **comprehensive management and support**. Get **scalable IT** that grows with your business. **Save time** with one single point of contact that knows and understands your business. Get the most out of Windows 10 Enterprise E3 with a **customized device strategy** tailored to your business needs.

## New per user licensing model

- Simple and consistent license management based on users, eliminating the need for device counting
- Easier to stay compliant
- Re-assign licenses as needed
- Align the management of your user licenses with other cloud-based services, such as Office 365

\*May require specific hardware

Windows Enterprise E3 is available right now from Fuse, with Office 365 and a comprehensive management, support and backup package.
